Infection Control Through the Selection of Hygienic Floors & Walls

An informative seminar provided by Altro in conjunction with the AIA Continuing Education System and the IIDA Professional Development Program.

overview

Altro contributes by offering a seminar entitled Preventing Infection Through the Selection of Hygienic Floors and Walls, an informative seminar examining dangers of Healthcare Associated Infections (HAIs) and how they can be avoided by selecting the right types of floors and walls.

learning objectives

- The dangers and costs associated with Healthcare Associated infections (HAIs).
- The major superbugs and how infections are spread.
- The role different types of surfaces play in infection and what makes some floors and walls more hygienic than others.
- How the design team can help prevent infection by specifying floors and walls with hygienic attributes.

accreditation

- ALTRO is registered with the AIA Continuing Education System (AIA/CES) and the IIDA Professional Development Program. Altro is committed to developing quality learning activities in accordance with AIA/CES and IIDA criteria. The seminar is one hour.
- AIA MEMBERS will receive 1 LU which will be reported directly to the CES by Altro.
- IIDA MEMBERS will receive 0.1 Continuing Education Unit CEU credit. Altro will register the credit for you. IIDA members must have a total of 1.0 CEU credits within a two year compliance period.
- AIA and IIDA members attending the seminar will receive a Certificate of Completion from Altro.
